# Dedication

As we the seniors of 1966 look in retrospect at our experiences in high school, we realize that without the assistance of many individuals, that our dream of becoming high school graduates would have been a mere fable. There are many to whom we owe debts of gratitude far greater than we will ever be able to repay. Among these are our principal, teachers, and certainly our sponsors, men and women whose direction, leadership, sterling example and intuitive foresight have guided us to the climax of what was once a far away and mystical fantasy.

However, it is to another group to whom we wish to dedicate this yearbook. It is to you who cared for us when were ill, encouraged us when we faltered, whose self-denial and sacrifices were ours without asking, who performed so many menial tasks for which we offered no expression of gratitude, that we take this opportunity to say thank you.

We the seniors wish to dedicate this, our last remembrance of our days in high school, to those whom we love so dearly, OUR PARENTS.

# Class Prophecy

The year is 1972. The place is northern Russia. My name is top secret—just call me 7. For the last two years I have been working for the government as a secret agent. I have had many close calls in my business but now it looks as though this will be my last mission. I am strapped to a table and looking over me is a stern fat Russian who is about to inject a truth serum into my veins. The Russians want official information about the class of '66 at Mt. Vernon High School. After the injection I begin to spill information about my classmates. . . . .

Sue Stephens has gone to a doctor and found that it was her other knee that was giving her trouble all along.  
Jerry Stokes is to be a guest on a new T. V. show called "Sing Along with Bucky."  
Eddie Warf is replacing Fred Gwynne as Herman Munster.  
Jerry Watkins has introduced a better system of teaching agriculture to his students.  
George Cloud has learned to keep his mouth closed when he is around Brod-head ballplayers.  
Billy Wheeler is the owner of Standard Oil of Kentucky.  
Dotty Williams is dean at Berea Foundation.

Earl Price is a Certified Public Accountant.  
Bobby Price has replaced Mr. Travis as the football coach.  
Sandy Childress is bootlegging cherry bombs.  
Mary Powell is trying to figure out a way not to look like Martha.  
Martha Powell is trying to figure out a way not to look like Mary.  
Ruby Price has just won a T. V. Deb Star award.  
Billy Joe Rash has finally gotten a transmission to stay in his chevy.  
Renee Reams has replaced Johnny Carson and is doing the show without a script.  
Michael Ponder has replaced E.J. as geometry teacher.  
Warren Berry is starring in a new Hollywood film, "Hud".  
Larry Baker is the new owner of Metrecal Inc.

Gary Cromer has bought ownership in Hunt's Tomato Sauce Co.  
Glenna Fletcher is running in the next presidential election.  
Brenda Kirby is still winning blue ribbons for her cooking.  
Jamie Lynn Mullins is teaching the French and English classes at the local high school.  
Maureen Jordan will run for Senator on the same ticket with Glenna.  
Donnie Singleton has received the nickname "Toots" for some unknown reason.

David Holland is designing wild, wild cars for G.M.  
Kelly Hunt has won praise from the dog-world for developing a miniature German shepherd.  
Joe Lambert has sung with Dean Martin only to find out that it was he, not Dean who was singing off key.  
Marcelene McFerron has enlisted in the W.A.C.S. and has volunteered for duty in Vietnam.  
Judy McClure and Sammy are happily married with a beautiful daughter, named Paula of course.  
Juanita Cox is a receptionist at a Playboy Bunny Club.  
Lula McLemore is working on Juanita's day off.  
Bucky McNew has flunked the armies entrance exam.  
Paul McNew is chief guide at Mammoth Cave National Park.  
Carter Mink is another loud-mouthed Cassius Clay.  
Roger Parsons is recuperating in a hospital, since his legs have gangrene from those tight pants.  
Ricky Payne has hired Floyd Owens to work for him as a janitor in the Dinner Bell.  
David Parrott now owns McKinney Motors.

The Russians now have the information they want and it looks like the end of me, Agent 7. But who should rush in now but the alumni from my class at Spy School. There are the ones from I Spy, Get Smart, Blue Light, Secret Agent, and also Amos Burke, James Bond, and finally the man from U.N.C.L.E. So at last it looks as if the Russians will lose this information after all—besides what good would it have done them.

Mt. Vernon High is very proud of its math and science department. Students are offered comprehensive courses in general mathematics, algebra I and II, plane and solid geometry, and trigonometry. Included in the science curriculum are general science, biology, human physiology, chemistry, and physics. Students here have done well in competition in math contests, and many rate high in national standardized test norms.

Mrs. Landrum's biology class examines specimens under a microscope

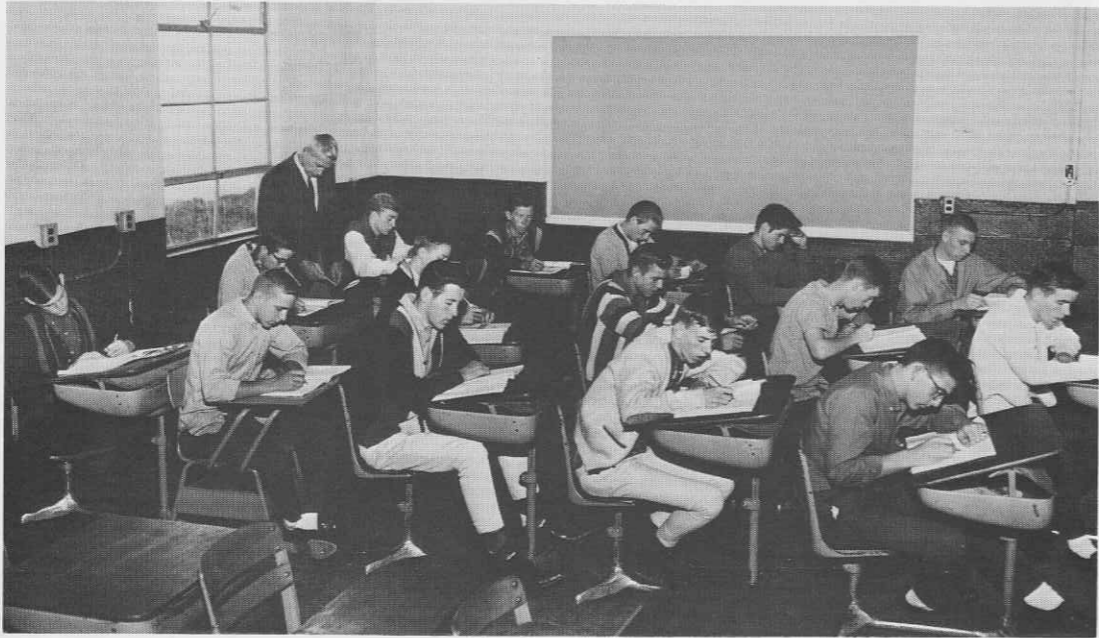

Here Joe Lambert, a senior, gives a report to Mr. Baker's Physiology class. Donnie Singleton seems to be interested in something other than Joe's lecture.

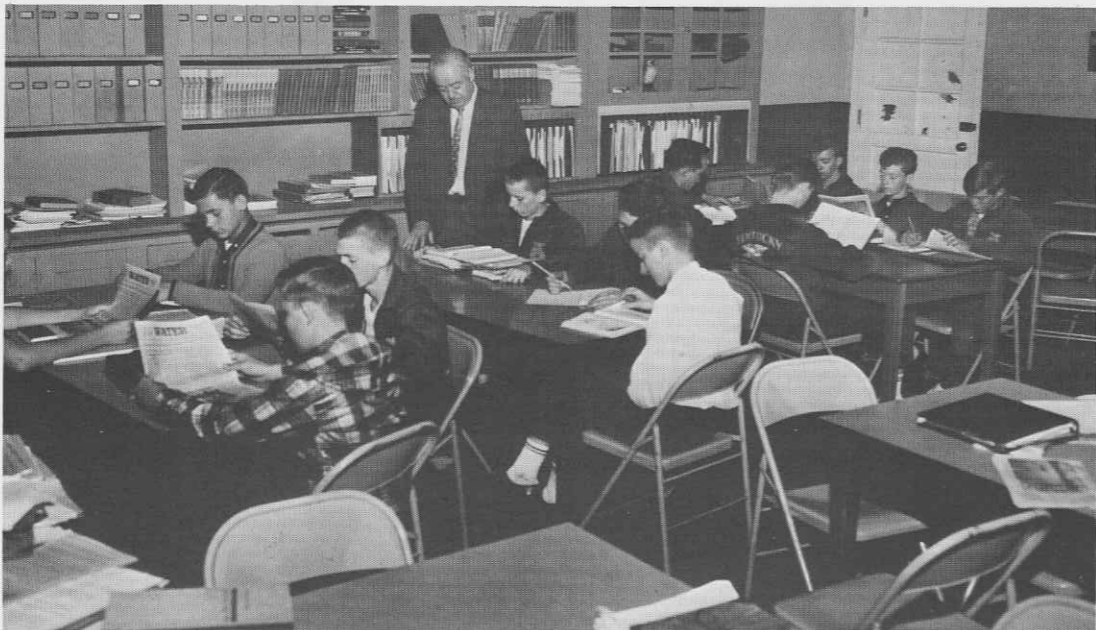

# Vocational

Students desiring training in manual skills are offered courses in industrial arts, home economics, and agriculture. These courses can be the basis for vocational training or a satisfying hobby.
